

COVID-19 Update

Texas Center for Proton Therapy Visitor Policy

Effective immediately, we are allowing only patients and essential vendors into our facilities. We need to limit the number of people in waiting rooms and clinical areas.

THEREFORE, NO VISITORS OR FAMILY MEMBERS MAY ACCOMPANY THE PATIENT.

For minors: One visitor, 18 years or older, may accompany the patient.

Other exceptions may be identified on a case by case basis.

All visitors and vendors must pass our established health-screening criteria at entry.

Visitors and family members are welcome to wait in the Healing Garden or in their personal vehicle.
